AMENDMENT TO REISSUE APPLICATION DECLARATION

Applicants amend the "Reissue Application Declaration by the Inventor" regarding the description of the error to read as follows:

Patent Application Serial No. 08/738,303 from which U.S. Patent No. 6,056,716 issued was inadvertently filed as a continuation-in-part application and included a "Claim for Benefit of U.S./PCT Application(s) Under 35 U.S.C. 120." 35 U.S.C. 154(a)(2), of which neither the inventors nor their assignee was aware, may have made the term of the patent be measured from the filing date of the earliest filed priority application, which was U.S. Patent Application Serial No. 07/059,620 which was filed on June 8, 1987. Since none of the earlier-filed patent applications to which Serial No. 08/738,303 is related contained a disclosure or any reference to the depth of entry into a body by the perforator to prevent the perforator from perforating the muscular region as disclosed in U.S. Patent No. 6,056,716 or as recited both in the claims prosecuted in Serial No. 08/738,303 and in the claims of Patent No. 6,056,716 issued therefrom, there was no need for the '716 patent to be a continuation-in-part.

If required by the Examiner, a fresh Reissue Application Declaration executed by all inventors will be provided.
